Department of Computer Science and Applications,

Panjab University, Chandigarh

Event: 'Cyber Attack and Awareness'

DATE: 16-11-2023

Report

A special lecture was conducted on 16 November 2023 at DCSA in collaboration with Secure Hack. The speaker was Mr. Uttam Singh who is Cyber Security Analyst at Secure Hack.

This seminar provides an insightful information and awareness about CyberAttacks over internet in our day-to-day life.

The speaker Mr. Uttam Singh, who is experienced in his domain makes the audience understand about cyber attacks and cyber awareness by sharing various real-life incidents of cyber attacks by hackers on our bank accounts and withdrawal of money, about viruses that get installed into our devices from a random photo or links that seems normal but is a malicious content. He also shared preventive measures to follow to avoid such cases.

He explained about various types of cyber attacks and viruses that occur in 7-Layers of OSI model of computer networks. He practically
demonstrates the coding and statements in Kali Linux for hacking andbecoming the root/super user to access details.

Mr. Uttam Singh encouraged the students to know and learn more about ethical hackingand cyber awareness and various possible career options and scope of being acyber security analyst in public sectors and government field.

Concluding, this seminar was highly informative about cyber-attacks andconscious of cyber awareness.
