# Workshop on Competitive Coding & Placements 2020

*On 24th April 2020, Friday. PrepBytes collaborated with Department of Computer Science & Applications, Panjab University to host a workshop on 'Competitive Coding and Placements'. The session was conducted by Ms. Mamta Kumari, Co-founder, PrepBytes, Ex-Amazon, Samsung.*

About the event:

Online webinar dated 24 April 2020 with mentor Ms. Mamta Kumari ,Prepbytes was centred about the role of competitive programming and interviews that IT firms hold to provide placements. In total 176 students from the department attended the online workshop.

An insight of types of jobs along with the difference in preparation needed for them was given. The session was based on problem thinking where they were given 20 questions. All the questions were explained and the approach to solve the problem was discussed. Students also cleared their doubts they had about programming and how to proceed further with competitive programming.

The following topics were also covered:

- How to get your dream job?
- How to get placed in companied like Amazon and Samsung?
- How should we improve coding, aptitude and tackle interview question?
- How to go for research projects and technical projects?

The overall session helped the students get insights about interview preparations, competitive programming, projects and placement preparations. The session was insightful and students gained prospective about the placements.
