DEPARTMENT EVENTS

Sunderkand Path

On October 15, 2024, the department organized a peaceful and holy Sunderkand Path ceremony to welcome first-year students & faculty coordinator Dr. Kavita Taneja, with enthusiastic participation from both students and faculty members. The event began with a pooja ceremony from 1:30 to 2:00 p.m., led by Pandit Ji, during which prayers were offered, and blessings from Lord Hanuman were sought by all attendees.

Following the pooja, from 2:00 to 4:00 p.m., students and teachers collectively recited the Sunderkand Path. The recitation, known for bringing strength and positivity, filled the hall with devotion and created a beautiful experience, fostering a sense of unity and purpose.

At 4:00 p.m., Pandit Ji performed an aarti, with all attendees gathering in reverence. The soul-stirring sounds of the aarti reinforced the collective feeling of unity and divinity. After the aarti, students and teachers sang bhajans, further enhancing the spiritual and joyful atmosphere.

The event concluded with the distribution of prasad, allowing everyone to receive blessings. The Sunderkand Path was a peaceful and enriching experience, drawing students and teachers closer together and filling

them with a sense of devotion and unity. This event highlighted the importance of togetherness and spirituality, fostering goodwill and unity across the department.

Ethnic Day

On the auspicious occasion of Diwali, the Department of Computer Science and Applications celebrated Ethnic Day with great enthusiasm under the coordination of Dr. Kavita Taneja. Students dressed in traditional attire, showcasing the diversity and beauty of their cultural heritage. The event began with an address from the department's chairperson, Dr. Anuj Sharma, who highlighted the importance of traditions in our lives and encouraged students to appreciate and preserve cultural values amidst modernization.

Following the address, a lively game session was organized, featuring popular activities such as Antakshri and Dumb Charades. These games brought a spirit of camaraderie and excitement, allowing students to bond and enjoy the festivities together. The event was a vibrant reminder of the joy and unity that Diwali brings, making it a memorable celebration for everyone involved. Through Ethnic Day, the department successfully fostered a sense of pride in tradition and a deeper understanding of the festival's cultural significance.

Diwali Special

दीपावली का त्योहार आया,
साथ में खुशियों की बहार लाया।

दीपको की सजी है कतार,
जगमगा रहा है पूरा संसार।

अंधकार पर प्रकाश की विजय लाया,
दीपावली का त्योहार आया।

सुख-समृद्धि की बहार लाया,
भाईचारे का संदेश लाया।

The Palette of Life

In a canvas wide, with colors bright,
The artist dreams in shades of light.
A stroke of red, a touch of blue,
A world awakens, pure and true.

Each brush's whisper, a story told,
Of love and loss, of brave and bold.
In silent hues, emotions gleam,
A silent song, a vivid dream.

The sculptor's hands, with patient grace,
Shape stone and clay to form a face.
Each chisel's kiss, a tender mark,
Brings life to marble, cold and stark.

The dancer's leap, in flight so free,
Writes poetry for all to see.
With every twirl, a tale unfurls,
Of ancient myths and distant worlds.

The poet's pen, in twilight's glow,
Weaves words that dance, like autumn's flow.
Each verse a star, in night's embrace,
A timeless echo, time and space.

MCA 2 (M)

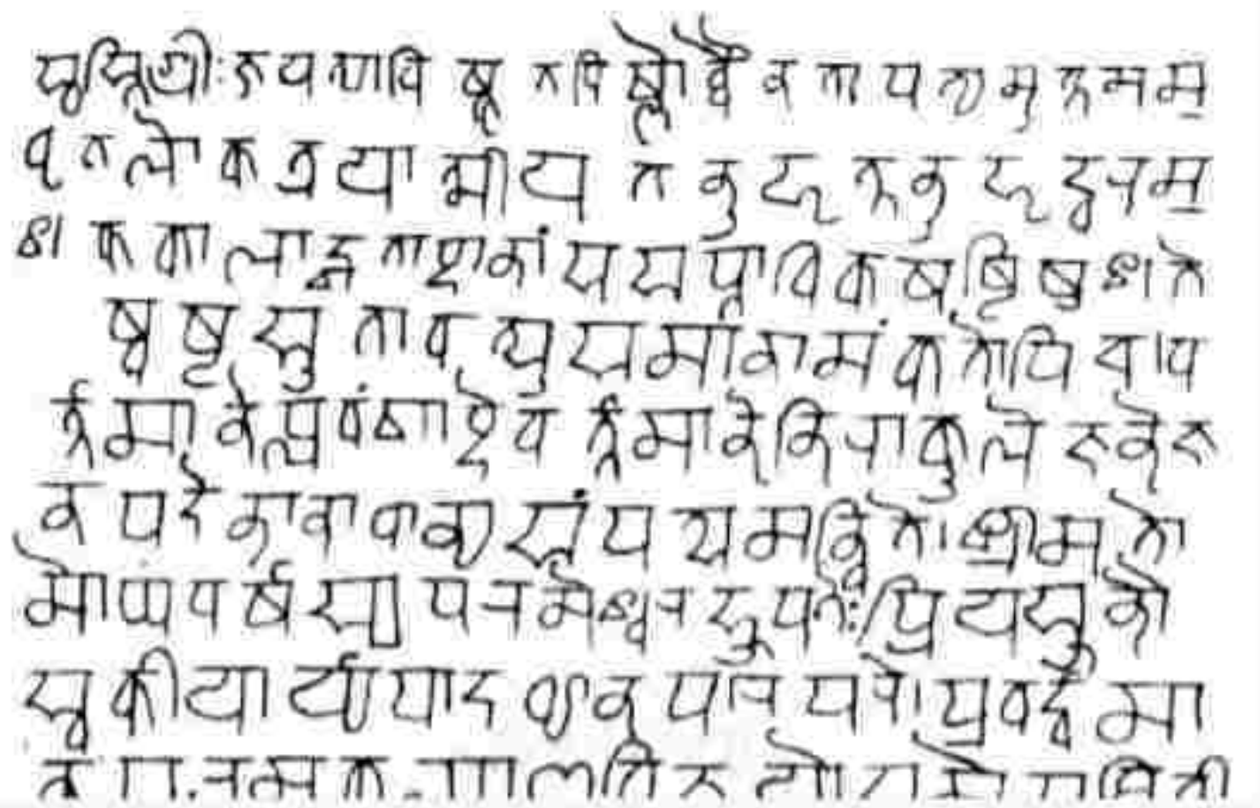

Four students from our department have successfully cleared the UGC NET 2024, marking a significant academic achievement. Their success highlights their commitment to excellence in research and education. This accomplishment not only showcases their hard work and perseverance but also brings pride to our department. We extend our heartfelt congratulations to these students and wish them continued success in their academic pursuits

ALUMNI CORNER

Dr. Monika Sethi

A mid-10th century Sanskrit land grant for a college, written in Devanāgarī, and discovered on a stone buried in north Karnataka. Parts of the inscription are written in Canarese script. [Source Wikipedia]

About

Dr. Monika Sethi earned her PhD in May 2024 with a thesis titled "Writer Identification and Gender Classification Framework for Forensic Handwriting Analysis in Devanagari Script." Her research focuses on behavioral biometric traits from handwritten text, particularly writer identification and gender classification, and offers an in-depth analysis of forensic handwriting. By exploring both physiological and behavioral aspects, her work bridges gaps in current research and opens new avenues for future innovations in biometric systems applied to forensic handwriting analysis. Her study also incorporates various deep learning models to enhance the accuracy and reliability of these systems. Her commitment to advancing computer science through innovative solutions and emerging technologies shines through her research and continually demonstrating academic excellence and an unwavering passion for knowledge.

Dr. Vinod Kumar Chauhan

About

Dr. Vinod Kumar Chauhan is a Postdoctoral Fellow in AI for Healthcare at the University of Oxford's CHI Lab. With a background as a Research Associate at Cambridge and a PhD from Panjab University, his research spans machine learning, causal inference, and healthcare applications. Dr. Chauhan has reviewed extensively for leading AI journals and conferences and serves as an Area Chair and Review Editor. He welcomes collaboration with students and healthcare professionals in advancing AI-driven healthcare solutions.

Message for students

"Dream Big, Plan, and Believe": Many of us have big dreams for our lives, but too often, we focus only on the outcomes without a solid plan to make them a reality. To achieve your dreams, you need clear, actionable steps, and most importantly, belief in yourself. Big dreams take time and will involve setbacks, but your belief in yourself is what will carry you through those challenges. Persistence through failure isn't just key to success – it also prepares you for the dream world. So, dream big, plan your journey, and consistently work towards it with the confidence that one day, you'll get there.

PLACEMENT UPDATES

CodeInsight's Placement drive

The Department of Computer Science and Applications held a placement drive, connecting talented MCA and MSc graduates with CodeInsight. The event aimed to bridge the gap between education and industry.

The process began with online aptitude tests on CodeInsight's "TALENT HUB" portal on September 30, 2024. Shortlisted candidates participated in a telephonic technical round on October 1, 2024. Ultimately, five candidates were selected for further technical and HR interviews, allowing students to showcase their skills for the Software Developer role. In the end, Muskan Chauhan from the MCA 2 (MORNING) stood out and was selected for an internship.

Overall, the placement drive marked a significant step in launching students into their careers, and we thank CodeInsight for their collaboration, looking forward to further support in the future.

Sensation Software Solutions' Placement Drive

On October 14, 2024, Sensation Software Solutions held a placement drive at the Department of Computer Science and Applications (DCSA), Panjab University, offering internship opportunities for Software Developer Intern, and Digital Marketing Intern roles. A total of 48 students registered for this drive.

The recruitment process consisted of two main rounds: a Technical Round and a Telephonic HR Round. The event began with a pre-placement talk, during which the company presented its work culture, core values, and expectations for the interns. After the Technical Round, 10 students were shortlisted for the HR Round, with 9 vying for the Software Developer Intern role and 1 for the Digital Marketing Intern role.

Upon conclusion of the HR Round, two students, Aakash Shukla (MCA III semester, Self-Financed) and Ankita Gill (MCA III semester Morning), were selected for the Software Developer Intern position. The placement drive provided a valuable platform for students to showcase their skills and gain industry experience.

Infosys Placement Drive

On 23rd October, INFOSYS conducted a placement drive for System Engineer at UIET by collaborating with UIET, Panjab University, drawing participation from 50 registered students. The drive began with an online test on 23rd October, which evaluated candidates' technical knowledge, aptitude, and analytical skills. From this pool, 11 students were shortlisted based on their impressive performance.

The interview round was held on 24th October at Chandigarh College of Engineering and Technology (CCET), where the selected candidates were further assessed on their technical expertise and interpersonal skills by INFOSYS' recruitment team. After a thorough evaluation, all 11 shortlisted students were successfully selected for positions within the company, highlighting their preparation and dedication.

Overall, the placement drive at DCSA was a valuable and professional experience, showcasing INFOSYS' high standards and providing students with a remarkable opportunity to begin their careers.

THE EDITORIAL TEAM

Faculty Coordinators

Dr. Jasleen Kaur Bains

Ms. Supreet Thapar

The department has established a new editorial team to oversee the release of a monthly newsletter. This initiative, guided by Faculty Coordinators Dr. Jasleen Kaur Bains and Ms. Supreet Thapar, aims to keep the department informed about updates from faculty, alumni, and students. Currently composed of second-year students, the team is open to welcoming first-year students who are interested in contributing.

The newsletter will serve as an essential tool for keeping everyone connected and up-to-date with departmental news, learning resources, and upcoming events. By providing insights and fostering engagement within the academic community, it will enhance communication and support among students, faculty, and alumni.
