Webinar on How to build a strong profile in tech?

On April 21st, 2020; Tuesday, GirlScript Chandigarh conducted a webinar on *'How To Build a Strong Profile in Tech?'.* The Speaker of the Webinar was Abhishek Sansanwal.

About the Speaker:

Entrepreneur & TEDx Speaker

Abhishek Sansanwal is a 20 years old entrepreneur. He is the founder & CEO of Verved and creator of Verved edProgram. He is a TEDx speaker, an international award winner titled "Top 50 Tech Leaders" by Intercon, Dubai & the recipient of "Young Entrepreneur Excellence Award" by NCCN. He is also one of the scholars of Google Venkat Panchapakesan Scholarship. He has a Youtube channel and also a podcast called "A Life Worth Living".

This event had total of 150 registrations which had 70 students from DCSA, Panjab University. The webinar focused on central idea about building a strong tech profile. He encouraged the students to participate more and more in events, conferences, hackathons. He guided the students to follow up any language of their choice along with data structures and algorithms and practicing competitive programming side by side. He himself shared his life experiences and how he reached this point of success at such an early age.

He also shared that Technical and Non-Technical skills play equal role in building a strong profile. He shared a good idea of Resume Building too.

It was really a worth attending webinar. Everybody gave a very good feedback and enjoyed the session.

WEBINAR ON OPEN SOURCE and GITHUB

On April 22nd , 2020; Wednesday, GirlScript Pilani conducted a webinar on *'Open Source and GitHub'.* The Speaker of the Webinar was Tushar Goyal.

About the Speaker:

Tushar Goyal is CTO at REGex Software. He is a Corporate Trainer and has an excellent knowledge of Apache Spark, ETL, Talend, Big Data, Hadoop and Data Science.

This Event had many registrations from all over the country including 40 students from DCSA, Panjab University. The Speaker told the importance of contributing to open source projects. He also told the viewers about using git bash and GitHub. Creating Repositories on GitHub and various important commands of git were also the part of discussions. He guided the Beginners to start contributing to open source and expand the knowledge.

It was a very good webinar and had lot to gain.
