Alumni Session with Dr. Dippy Aggarwal

A noteworthy alumni session took place today at the Department of Computer Science and Applications (DCSA) at Panjab University. The distinguished guest for the day was Dr. Dippy Aggarwal, an esteemed member of the 2007 batch and currently a Software Development Engineer at Intel, with 6 and a half years of valuable experience. Dr. Aggarwal's academic journey began with a Masters in Computer Applications from Panjab University in 2007, followed by a Ph.D. in Computer Science with a specialization in Databases from the University of Cincinnati.

The session commenced with a warm welcome, where Dr. Aggarwal was presented with a bouquet as a token of respect and honor by Prof. Anu Gupta and our esteemed Chairperson, Dr. Rohini Sharma. The audience consisted of students spanning various batches, creating an enriching atmosphere for knowledge exchange.

The session took on an informal tone, providing an invaluable opportunity for current students to engage with an accomplished alumna. Dr. Aggarwal shared insights into various career pathways, categorizing them into four distinct avenues.

Firstly, she touched upon on-campus placements, highlighting that the university has established frameworks to facilitate this process. DCSA, in particular, boasts a dedicated placement cell that diligently oversees placement opportunities for students.

Next, Dr. Aggarwal delved into the realm of off-campus placements. She encouraged students to enhance their CVs by actively engaging in unique and exceptional projects that set them apart from their peers. Emphasizing the importance of personal initiative, she encouraged students to invest time in projects that extend beyond classroom assignments.

Thirdly, she spoke about the prospect of becoming a teacher. Dr. Aggarwal emphasized the significance of maintaining a growth mindset and developing a clear understanding of the pathway to becoming a professor or a teaching faculty member. Clarity and determination are vital in this journey.

Lastly, Dr. Aggarwal shared insights into the possibility of pursuing a career abroad after completing one's master's degree. She emphasized the advantages of international exposure and professional growth on foreign soil.

Towards the end of the session, Dr. Aggarwal graciously dedicated time to interact individually with students who sought her guidance. She acknowledged the crucial role mentors played in her own career and expressed her commitment to "pay it forward" by assisting current students to the best of her abilities.

In conclusion, the alumni session with Dr. Dippy Aggarwal proved to be an insightful and inspirational event for all attendees. Her valuable insights into diverse career paths, combined with her genuine willingness to help students, left a lasting impact. This session underscored the enduring bond between the DCSA alumni and the current generation, fostering a spirit of learning and growth.
