DEPARTMENT EVENTS

Teachers' Day celebration

The department celebrated Teacher's Day with great enthusiasm one day earlier on September 4, 2024. The event aimed to honor the dedication, hard work, and invaluable contributions of the faculty and staff members who shape the minds of future professionals.

The event was organized under the guidance of Dr. Anuj Kumar and Dr. Kavita Taneja, who meticulously planned and coordinated the celebration, ensuring that every aspect of the program reflected the department's respect and admiration for its faculty and staff members. Each faculty and staff member was presented with a personalized gift, which included a beautifully crafted memento and a handwritten card from students expressing their gratitude for the constant support, guidance, and motivation.

Dr. Anuj Sharma, Chairperson of the department, addressed the gathering on the occasion and emphasized the importance of teachers in one's life. The students gave series of performances, including a musical tribute, a dance performance, and a few poetry recitations. A special session was conducted where teachers were invited to share their experiences and memories from their teaching career. The teachers expressed their thoughts on the evolution of teaching in the digital age, the joys of mentoring students, and the challenges they faced during their journey. This session provided an opportunity for students to connect with their teachers on a more personal level.

The celebrations continued with a fun-filled session of games, activities such as a modeling competition and a dialogue-speaking game. The event was followed by refreshments, including a variety of snacks and drinks, providing a perfect opportunity for informal interactions between students and faculty members.

DEPARTMENT EVENTS

PU Student Council Elections

On September 5, 2024, the Panjab University conducted student council elections. Voting began promptly at 9:00 a.m in the department. All students casted their votes by stamping the ballot papers, which listed the Panjab University's nominated candidates for positions including President, Vice President, Secretary, General Secretary, and Department representatives.

The elections were conducted in a fair and smooth manner. On the same day, the results of elections were announced at 5:00 p.m. The elected DCSA Department Representatives chosen to represent their peers were Harsh Kumar from M.C.A. 3rd Semester (Self-finance), Omkar Singh from M.C.A. 3rd Semester (Self-finance), and Shakti Singh from M.Sc. (C.S) 3rd Semester.

This democratic process reflected the department's commitment to students involvement and representation, providing an opportunity for leadership roles within the academic community.

Alumni Interaction With Mr. Kulbir Singh

DEPARTMENT EVENTS

On September 9, 2024, department had the privilege of hosting an engaging Alumni Session with Mr. Kulbir Singh, a Senior Software Engineer at Quark Software Inc, Mohali, Punjab. He is an esteemed alumnus from the 2017-2020 batch. The session provided an excellent opportunity for current students to interact with an industry expert and gain insights into the tech world. Mr. Kulbir shared his personal journey from university to becoming a successful professional, offering valuable advice on career paths, skill development, and industry trends. He emphasized the importance of continuous learning, adaptability, and mastering core technical skills like coding and problem-solving to thrive in the competitive tech industry.

The session was highly interactive, with students asking questions about challenges in the field, interview preparation, and ways to align academic learning with real-world demands. Overall, Mr. Kulbir's words of wisdom and experience inspired students to pursue their career goals with determination and focus.

Swatch Bharat cleanliness drive at Student Centre Panjab University

A mega cleanliness drive was organized under the leadership of Dr. Anuj Kumar, Swachh Bharat Abhiyaan Coordinator, Panjab University, Chandigarh. It was the joint efforts by Swachh Bharat Abhiyaan and DCSA. Held with the goal of promoting cleanliness on campus, the event saw enthusiastic participation from students and volunteers at Student Centre, Panjab University, Chandigarh.

Participants actively cleaned the Student Centre and surrounding lawns, working diligently to maintain a hygienic environment. Along with cleaning, they educated visitors about the importance of disposing of food waste properly in designated bins, encouraging them to keep their surroundings clean.

This initiative not only made the area cleaner but also raised awareness about environmental responsibility among the campus community. The collaboration between Swachh Bharat Abhiyan committee and the department made the event a success, inspiring students to continue upholding cleanliness standards across the university. The drive emphasized the importance of maintaining a clean and healthy campus.

Sapling Plantation drive by M.Sc (CS) 3rd semester students

On September 30, 2024, a sapling plantation drive was organized by the students of M.Sc(CS) 3rd semester under the guidance of Dr. Anuj Kumar as part of the Swachh Bharat Abhiyan. The drive took place in front of the department area, near the cycle parking.

DEPARTMENT EVENTS

The students actively participated by planting four saplings, including Neem, Gulmohar, Guava, and Hibiscus. This initiative aimed to promote a greener campus and environmental sustainability. The department faculty accompanied the students, providing encouragement and support throughout the event.

The plantation drive not only contributed to the beautification of the area but also aligned with the broader goals of the Swachh Bharat Abhiyan by promoting environmental consciousness among students. The enthusiasm of both students and staff made the event a great success, reflecting the university's commitment to sustainability.

Faculty Outreach

Dr. Anuj Sharma as CBSE Resource Person on AI in education

Dr. Anuj Sharma served as a resource person from CBSE, conducted an insightful session on "Use of AI in Education" for teachers of CBSE-affiliated schools in Himachal Pradesh. The session aimed to familiarize educators with the transformative potential of artificial intelligence in enhancing teaching and learning experiences.

Dr. Sharma highlighted key applications of AI in education, including personalized learning, adaptive assessments, and administrative efficiencies. He emphasized the role of AI in catering to diverse learning styles and improving educational outcomes. The lecture was well-received, with participants engaging in discussions on integrating AI tools into their teaching methodologies

Dr. Anuj Kumar as Co-ordinator

Online NEP 2020: Orientation and Sensitization Programme UGC's Flagship Programme

From September 16, 2024 to September 26, 2024, the UGC-Malaviya Mission Teacher Training Centre (MMTTC) at Panjab University, Chandigarh, hosted a one-week online orientation and sensitization programme on the National Education Policy (NEP) 2020. Dr. Anuj Kumar was one of the co-ordinators for this programme. The programme addressed key themes such as Holistic and Multidisciplinary Education, Research and Development, Indian Knowledge Systems, and Skill Development. 75 Participants, including faculty from various educational institutions, engaged in discussions on Academic Leadership, Inclusive Education, and the role of Information and Communication Technology in modern education. The programme provided valuable insights into implementing NEP 2020 effectively across higher education

PLACEMENT UPDATES

Chic Mic Placement Drive

ChicMic's placement drive commenced on September 6, 2024. They had offered the roles of Business Development Executive, Quality Assurance, Web Designer, and Associate Software Developer. A total of 64 students took part in this placement drive. There were three rounds for technical roles and two rounds for non-technical roles. Students took an online aptitude assessment tailored to their respective roles. Candidates were tested on their technical implementation, problem-solving, and communication skills. After the first round, 28 students were shortlisted for appearing in further rounds for technical roles and 19 for non-technical roles.

On the same day, shortlisted candidates attended in-person interviews comprising three rounds: two technical rounds, and an HR round. The interviewers created a supportive environment for students. Eventually, 13 students were placed in both technical and non-technical roles.

This marked the successful conclusion of the placement drive, with many students expressing their appreciation for the positive and enriching experience. The entire process reflected ChicMic's commitment towards finding the right talent, and ensuring that candidates felt valued and supported throughout the selection process.

Avisoft Placement Drive

Avisoft's placement drive commenced on September 13, 2024 for the role of Software Engineer Trainee. A total of 21 students took part in this placement drive. There were two rounds: Aptitude test and Technical interviews. Candidates were tested on technical implementation, problem-solving, and communication. After going through the test results, 5 students were selected for the Technical round.

Later in the day, shortlisted candidates attended in-person interviews and eventually, 2 students were placed for the role of Software Engineer trainee.

PLACEMENT UPDATES

HanuAI Placement Drive

The Hanu AI placement drive was conducted on September 27, 2024, providing students with an excellent opportunity to secure placement. The process included multiple rounds designed to evaluate both technical and interpersonal skills.

A total of 35 students registered for this placement. The first day of the placement drive began with an aptitude test, Followed by the results of 16 students in, the first round of technical interview was conducted. The shortlisted candidates were called the next day for a second technical interview, where their in-depth knowledge and problem-solving abilities were assessed.

On the final day, the candidates who cleared the technical rounds participated in an HR interview, which focused on evaluating their communication skills, attitude, and overall suitability for the company culture. Arijit of MCA 3rd semester (self-finance) was offered the job.

TPC Interviews for the formation of a new TPC team for the year 2025.

In the first week of September, interviews for selecting new members of the Training and Placement Cell (TPC) were conducted. The current student team of TPC were part of the interview panel and carefully prepared a set of questions for the selection process. Interested students were invited to apply through Google Forms, which received 39 responses. Based on these applications, telephonic interviews were conducted to further shortlist candidates for in-person interviews.

A total of 33 students were selected for one-on-one interviews. The interviews were conducted by three panels, each consisting of six members from the existing TPC team. Candidates were interviewed for their preferred roles within the TPC, with a focus on evaluating their presence of mind, communication abilities, and problem-solving skills. Finally, 19 students were selected.

The selection process was thorough and aimed at identifying students capable of contributing effectively to the department's placement activities, ensuring a dynamic and skilled team for the upcoming academic year.

Editorial team interviews for the formation of new editorial team for the year 2025

The department recently conducted a selection process for formation of its new editorial team. The process began on September 9, 2024. The interested students were invited to apply through a Google Form. A total of 15 students applied for various roles, including design, proofreading, photography, report writing, alumni interaction, and database management.

STUDENTS CORNER

Each applicant underwent a series of interviews and skills assessments tailored to their chosen roles. The evaluation focused on their communication skills, quick thinking, and technical abilities relevant to the tasks at hand. After a thorough assessment, 10 students were selected for the editorial team. This new team is expected to bring fresh perspectives and energy to the department's publications and events, contributing to effective communication and outreach within the academic community.

Student's Achievements

Bhavneet Saini

M.Sc(CS) - 3rd semester

She secured 3rd position in Panjab University declamation contest on 55th NSS Foundation Day on 'Swatchhta he seva' held at Principal PL Ananda Auditorium on September 24, 2024. Her insightful speech and commitment to the cause were widely praised by the audience and judges alike.

Mahatma Gandhi said, "I will not let anyone walk through my mind with their dirty feet."

स्वच्छ भारत अभियान

स्वत्च्छता हो इरादो में, स्वच्छ हो विचार
स्वच्छ हो नीयत , स्वच्छ हो कारोबार

स्वत्च्छता हो संबंधों में, स्वच्छ हो स्वभाव
स्वच्छ हो गलिया, नदियां ये वन और पहाड़

स्वच्छ हो भारत, स्वच्छ हो हर भारतीय निवास
स्वत्च्छता ही सेवा, है परमो धर्म, हो मन में विश्वास

निश्चित ही मिलेगी भारत को विकसित भारत की पहचान

जय हिन्द

Bhavneet Saini (M.Sc (CS) 3rd semester)

PM's address at the 'Swachhata Hi Seva' 2024 programme

At this important juncture, new projects worth around 10,000 crore rupees related to cleanliness have been launched. Under the AMRUT mission, water and sewage treatment plants will be constructed in many cities across the country. Whether it's work related to "Namami Gange" or biogas production from waste through "GOBARdhan" plants, these initiatives will elevate the Swachh Bharat Mission to new heights. The more successful the Swachh Bharat Mission is, the brighter our country will shine. Know more about this programme

महाभारत

पुत्र मोह के बीज जब पिता के मन में अंकुरित हो आते हैं
तब उस सभा में धृतराष्ट्र दुर्योधन को न रोक पाते हैं,

द्रोपदी के चीर हरण पर युद्ध आरंभ हो जाता है,
उस अन्याय पर सभी का मौन समझ न आता है,

जब मृत्यु खड़ी हो सामने और हृदय बहुत घबराता है,
और विध्वंस के अतिरिक्त जब कुछ और नजर नहीं आता है,

तब अर्जुन की आखों के आगे मोह का अंधकार हुआ
कृष्ण के विराट रूप का अर्जुन को शक्षात्कार हुआ,

पार्थ कहते है कृष्ण को कैसा ये धर्म कहलाया,
कैसे चलाऊंगा बाण उनपर जिन हाथों ने गोद में खिलाया,

होकर चिंतित पार्थ जब गांडीव (धनुष) छोड़कर जातें हैं,
रण में होकर खड़ा कृष्ण गीता ज्ञान सुनाते हैं,

कहते हैं माधव युद्ध में ये अपने नहीं कौन रहे,
ये सब वहीं हैं जो पांचाली के वस्त्र हरण पर मौन रहे,

धर्म और कर्म का जब कृष्ण ज्ञान पढ़ाते हैं,
तब जाकर अर्जुन गांडीव से बाण चलते हैं

Aakash Shukla (MCA 3rd Semester (Self-Finance))

Dr. Sukhdeep Singh

Assistant Professor at D.M. College, Moga

He has done his MCA and PhD in Computer Science from DCSA. He has also done his Postdoctoral Research from Boise State University, USA.
His message to students: *"Congratulations on being selected for your studies in DCSA, PU, Chandigarh. Your dedication and perseverance will lead to success. Though the journey may include late nights and countless hours of research, your commitment will pay off. Wishing you all the best, may your work make a lasting impact and bring continued success and fulfillment."*

Batch:
MCA (2009-2012)
PhD (2013-2018)

MCA Batch: 2019-2022

Navpreet Kaur

iOS Engineer at Appscrip, Mohali

A message from our esteemed alumni: *"Focus on your lectures and stay consistent in learning. Prioritize developing skills in emerging technologies, especially AI, and practice writing clean, efficient code. Aim to complete at least one project where you manage both backend and frontend to gain comprehensive experience."*

Himanshu Sood

Associate Tech Lead at Appinventiv Technologies Pvt Ltd

A message from our esteemed alumni: *"Wishing you all the best for your future endeavors! Embrace every challenge with confidence and enjoy your time at Panjab University, your second home. Cherish the memories, friendships, and experiences. Give your best in everything you do and make the most of this wonderful journey ahead. Good luck!"*

MCA Batch: 2013-2016

RESEARCH HIGHLIGHTS

Dr. Lalita completed her PhD

Dr. Lalita has earned her PhD degree in September 2024 through her dedication and passion for research. Her PhD title was "**Text Spotting and Lexicon Based Recognition of Cursive Handwriting in Document Images**". Her research work delves into various deep learning models, proposing novel architectures and methodologies tailored for HTR. Her work reflects a deep commitment to advancing the field of computer science, with a focus on innovative solutions and emerging technologies. She continues to inspire students and peers alike with her academic achievements and relentless pursuit of knowledge.

Research work of Dr. Silky Sachar

Dr. Silky Sachar, earned her Phd degree in September 2024. Her PhD title was "**An Image-Based Machine Learning Model for Medicinal Plants Recognition**". Her research presents an image-based machine learning model for the recognition of medicinal plants using leaf images.

She received the Best Paper Award for her work, "Hybrid Computer Vision Approach for Identification of Medicinal Leaves," at the National Seminar on Business Intelligence with Intelligent Computing in March 2022. She also won the Best Poster Award at ICONICA 2020, a global summit on healthcare, organized by Panjab University. Her achievements highlight her expertise and contribution to research.

LaTeX: A Vital Tool for Research and Academia

In research writing, both clarity and professionalism are essential. LaTeX, short for "Lamport TeX," is a robust system for preparing documents, particularly well-suited for scientific and technical writing. It is widely recognized for its ability to produce high-quality typeset documents. LaTeX is highly regarded as the optimal solution for experts in mathematics, science, and engineering. Its impressive ability to process intricate mathematical formulas, symbols, and notations is noteworthy. Additionally, it offers the flexibility to create custom templates for various document formats, including thesis, research papers, and presentations.

In LaTeX, one can structure their research documents with sections, subsections, and appendices, and it automatically creates tables of contents and lists of figures. A .bib file is designed for storing bibliographic references in a particular format, which facilitates the independent management of citations. LaTeX can be implemented using tools like MiKTeX, TeXworks, LaTeX Editor, Overleaf, and many more. LaTeX is an open-source program that anyone can use for free and benefits with considerable support from its community. LaTeX files are easily accessible and less likely to get corrupted. LaTeX is a vital resource for researchers and academics, offering a flexible and adaptable platform for preparing documents.
