Workshop on "AUGMENTED REALITY (AR) & VIRTUAL REALITY(VR)" 2020

On 23rd June 2020, Tuesday. Manas Gajare, Founder and CEO of Zabuza Labs collaborated with Department of Computer Science & Applications, Panjab University to deliver a session about AR & VR.

About the speaker: Manas Gajare is the Founder and CEO of Zabuza Labs, a mobile apps and game development startup based in Nashik, India. Zabuza Labs has developed over 350 android apps and over 25 different game titles, including Balloon Bow & Arrow, Dahihandi Knock Down, John & The Cursed Dungeon, Duple and Save Trees.

Manas and Zabuza Labs were one of the winners of the App4India contest conducted by Intel. Mans has a M. Sc. in Mathematics from KTHM College in Nashik, a B.E. Computer from Sardar Patel Institute of Technology and was the recipient of the Shikshan Tapasvi and Shivgaurav Purskar awards.

About the event:

Online webinar dated 23 June 2020 with mentor Mr. *Manas Gajar* was centred about Augmented Reality(AR) and Virtual Reality(VR). In total 59 students from the department attended the online workshop.

The webinar was attended by the students, research scholars and the faculty of the university department. Mr. Manas Gajare explained each and every topic in the best and easiest way with of help of real daily life examples and small video clips. Topics like Octulus , Htc vive , Octulus rift s , Tilt brush , VR special advantages , VR applications , Software used in VR , Skills required, Basics of Augmented Reality, AR advantages , AR applications , Snapchat AR effects , Types of AR.

Mr. Manas Gajare really well explained VR applications with the help of small video clips for the better understanding. He showed a video of how VR is being implemented in their office. He explained everything from the scratch and explained everything within the time frame. He cleared all the doubts raised by all the attendees. To sum up, the webinar was really informative and we look forward for more such useful and knowledgeable webinars in the field of computers and technology required currently in the society.
