DCSA PLACEMENT SESSION BATCH 2019-2022 BEGINS

We, the Department of Computer Science and Applications, PU, Chandigarh, have successfully begun our session for the Campus Placement for the Batch 2019-2022. The first company to visit the department this year would be **MEDIATEK**. On July 2nd, 2021 a Pre-Placement Session was held by the company to briefly cover about their company's vision, work culture and the selection procedure for the placement being conducted.

MediaTek is a Taiwan based company which is the world's 4th largest global fabless semiconductor company and powers more than 2 billion devices a year. It leads the market in chipset technology for Smart TVs, Voice Assistant Devices (VAD), Android tablets, feature phones, Optical and Blu-ray DVD players, and is number two globally in mobile phones. One can find their presence in 20 percent of homes globally and nearly 1 of every 3 mobile phones is powered by MediaTek. It is spread around various global locations which include Mainland China, Dubai, Finland, India, Japan, Korea, Singapore, Sweden, Taiwan, United Kingdom and United States.

The Training and Placement Cell, DCSA, PU had successfully organized talks with two of our department alumni of Batch 2020 namely Mr. Gursewak Singh and Ms. Payal Vadera who are placed in MediaTek, which benefited the students to learn more about the company and they eagerly participated to clear all their doubts and questions.

Further, the students are looking forward to give their best in the upcoming Placement Test for MediaTek scheduled in the coming week.
