ONE WEEK INTERDISCIPLINARY FACULTY DEVELOPMENT PROGRAMME ON

**ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING: BASICS AND APPLICATIONS**

The Department of Computer Science and Applications and Centre for Academic Leadership and Education Management (CALEM), Panjab University Chandigarh under the aegis of PMMMNMTT organized a seven-day Faculty Development Programme on 'Artificial Intelligence and Machine Learning: Basics and Applications' from 22 to 28th December, 2020. Prof. Jatinder Grover acted as Calem Coordinator and Dr. Anuj Sharma and Dr. Rohini Sharma acted as Programme Coordinators.

The program was inaugurated on 22nd December at 10:00 AM. The inauguration session was graced by Prof. Kuldip Chand Agnihotri, Hon'ble Vice-Chancellor of Central University of Himachal Pradesh and Prof. Raj Kumar, Vice-Chancellor, Panjab University. During the programme, various eminent speakers from ISI, Kolkata, University of Delhi, BITS Pilani, University of Cambridge, UK, IIT Indore, Infosys and Panjab University delivered talks. Eighty-nine participants from thirteen different states of India participated in the programme.

## About the University

One of the oldest Universities in India, the Panjab University (PU) initiated at Lahore in 1882, has a long tradition of pursuing excellence in teaching and research in science and technology, humanities, social sciences, performing arts and sports. The University supports excellence and innovation in academic programs, promotes excellence in research, scholarship and teaching. The University is committed to attract and support the best students and faculty, who excel at teaching and research. In independent India, Panjab University with its Campus at Chandigarh and nearly 188 colleges in Punjab state and Chandigarh U.T., has served various societal needs with distinction. The glorious traditions of the University established during the period of more than 138 years of its long service to the nation since its inception are a source of inspiration for the present generation of faculty members and students.

## Course Objectives

The proposed short term programme is focused to educate young teachers and researchers in the domain of Artificial Intelligence and Machine Learning. The course is inter-disciplinary in nature and participants from various disciplines may be benefitted in their respective research and academic work.
