National Science Day

28-02-2023

REPORT

National Science Day is an annual celebration observed in India on 28th February to commemorate the discovery of the Raman Effect, for which the Indian physicist C.V. Raman won the Nobel Prize. The Department of Computer Science and Applications, Panjab University also celebrated the National Science Day by organising many academic activities like Coding Competition, Debate Competition, Science Model Demonstration and IT Quiz.

There were numerous participants for coding which was conducted on the online coding platform hackerrank. The first prize of the coding competition was awarded to Tarun Kumar of MCA second year. The second position was bagged by Akshit of MCA second year, and the third position was grabbed by Maninder Singh of MCA second year. The debate competition successfully completed with arguments on the topic 'SHOULD HUMAN CLONING BE LEGALISED?' and 'IS TECHNOLOGY MAKING PEOPLE DUMB?' in which Gopikaa of MCA first year was given the first prize. The second prize was won by Rahul Kumar of MCA first year and the third position was earned by Abha Suri of MCA second year. These topics attracted the interest of not only the students but the judges and other faculty members also as they equally participated in the event. In science model demonstration, the students came up with innovative ideas on science and computer science. There was e-waste robot, models using science technologies, software demonstrations to name a few. The first prize was awarded to Jasmandeep Singh Chawla of MCA second year. The second position was bagged by Manav Paul of MCA first year. The third prize was given to Gautam of MCA second year. The IT Quiz observed participation of around 100 participants where only few could qualify for the final round after clearing the pen and paper round. The second round of the IT Quiz was based on some famous computer science topics like analytical coding, history of computer science, awareness and future of computer science. Tarun Kumar and Raman Malik of MCA second year won the first prize. The second prize was given to Shreya Sharma and VanshajKaushal of MCA first year. The third position was grabbed by Chirag and SaurabhJangra of MCA first year .The day wrapped up with the prize distribution ceremony where the winners were awarded with certificates and mementos and the participants were given the certificates. To conclude, the National Science Day at the Department of Computer Science and Applications was a huge success with maximum participation of around 120 students of the department.
