# Silver Sparks 2025: A Reunion of DCSA Alumni

The Department organized the Silver Sparks 2025 – DCSA Alumni Meet on November 1, 2025 at the DCSA premises, bringing together alumni from multiple batches to reconnect with their academic roots. The meet was coordinated by Prof.(Dr.) Anu Gupta and Dr. Supreet Thapar , with valuable support from Dr. Balwinder Kaur and Ms. Vaishali Mehta. It aimed to strengthen alumni–department collaboration, celebrate shared memories, and explore avenues for mentoring and networking.

By inviting alumni from multiple graduating years, the department sought to create a multi-generational network where experienced professionals could guide recent graduates and current students. Another key aim was to rekindle nostalgic memories of campus life and foster a sense of pride and belonging among attendees.

The programme commenced at 3:00 PM in the department, where alumni were warmly welcomed at the registration desk and guided to the venue. The formal session opened with a cordial welcome address by Chairperson, Dr. Anuj Sharma, opening and greetings, during which the organizing team expressed gratitude to the alumni for responding enthusiastically to the invitation.

This was followed by the inaugural lamp lighting ceremony, symbolizing knowledge, enlightenment, and the enduring bond between the department and its alumni. Faculty members, along with selected alumni representatives, joined in lighting the ceremonial lamp, setting a dignified tone for the rest of the event.

The following alumni attended the meet:
Ashish Sharma (Batch-2000), Munish Jauhar (Batch-2000), Sujit Kumar (Batch-2000), Suruchi Ailawadi (Batch-2000), Mohit Sethi (Batch-2000), Bandana (Batch-2000), Charumati (Batch-2000), and Erica (Batch-2000) represented the earliest batch, followed by Tsering Norboo (Batch-2001) and Anjali Jindia (Batch-2006). The later batches included Prabhjeet Kaur (Batch-2018), Rohini Sharma (Batch-2019), Gautam Goel (Batch-2024), Sahil Gupta (Batch-2024), Akanksha (Batch-2024), and Jagdeep Singh (Batch-2025).

The programme moved into an interactive phase where faculty members addressed the gathering and shared key updates about DCSA. They highlighted recent academic initiatives, curriculum enhancements, research achievements, and technological upgrades that have strengthened the department's position in the field of computer science and applications. This two-way interaction allowed the faculty to gather valuable feedback while enabling alumni to reconnect with their teachers in a meaningful and informal manner.
To celebrate the joyful spirit of reunion, the event included a segment of cultural performance by students. The organizers also arranged fun and interactive games, which served as effective ice-breakers and encouraged alumni from different batches to mingle freely.

In recognition of the accomplishments of its graduates, the department organized an alumni felicitation ceremony as part of the evening proceedings. Alumni who had distinguished themselves in industry, academia, entrepreneurship, or public service were invited on stage and honoured with tokens of appreciation.
The event concluded with tea and networking, where alumni, faculty, and students continued to interact informally. Conversations during this time revolved around nostalgic recollections of classroom moments, practical lab sessions, college festivals, and shared struggles and successes, reinforcing the emotional connection that binds the DCSA community together.

# Nasha Mukt Bharat, Swachh Bharat: Students Lead Through Creativity

The Department in collaboration with the Training and Placement Cell successfully organized a Poster Making Competition on Tuesday, November 4, 2025, at the RUSA Lab. The event was conducted under the impactful themes “Nasha Mukt Bharat” and “Swachh Bharat Swasth Bharat”, aiming to inspire social responsibility, creativity, and awareness among students.

The competition was efficiently coordinated by Dr. Anuj Kumar and Dr. Kavita Taneja. Participants were free to choose one or both themes, allowing them to reflect their personal perspectives on national cleanliness and drug-free initiatives.

The judgment session was held from 2:00 PM to 3:00 PM, during which all submitted posters were evaluated with great enthusiasm and interest. To ensure a smooth and professional evaluation process, a PowerPoint presentation containing all the posters was showcased to the judges, allowing each entry to receive equal visibility and attention.

The competition was judged by a distinguished panel comprising:

- Dr. Anuj Sharma
- Prof. (Dr.) Anu Gupta
- Dr. Anuj Kumar

After careful deliberation by the judging panel, the winners of the Poster Making Competition were announced soon after the evaluation. Faham and Faiz from MCA-I [E] secured the first position with their impactful presentation, followed by Yashika from MCA-I [E] in second place for her creative and visually engaging work. Jasneet Kaur from MCA-I [M] secured the third position, earning appreciation for her strong concept and thoughtful execution.

A special highlight of the competition was the distinctive presentation style and originality demonstrated by the winners. Faham and Faiz left a lasting impact on the judges by complementing their poster with a powerful poetic narration, delivered in an impressive and bold voice that strongly conveyed the message of a drug-free and responsible society.

Yashika's artwork stood out for its visual appeal and artistic finesse, instantly capturing attention through its thoughtful use of imagery and color to reinforce the theme of cleanliness and healthy living.

Jasneet Kaur impressed the judging panel with a deeply powerful and concept-driven poster, reflecting strong ideological clarity and social awareness. Together, these presentations elevated the overall standard of the competition and highlighted the students' ability to communicate impactful messages through diverse creative expressions.

# Sensitization & Alumni Interaction Session for Batch 2025–27

On November 4, 2025 the Department organized a Sensitization & Alumni Interaction Session for the Batch of 2025–27. The event was organized in collaboration with the Central Placement Cell (CPC) under the guidance of Dr. Anuj Sharma (Chairperson), Prof. Meenu Sharma (Honorary Director, Central Placement Cell), and Dr. Anuj Kumar and Dr. Kavita Taneja (Placement Officers).

The session featured Mr. Manish Jauhar, an alumnus of Panjab University, as invited speaker. Mr. Jauhar completed his Master's degree in 2000. He is an entrepreneur and angel investor , his journey in the startup ecosystem began in 2004 with the inception of GrayCell Technologies. Over the years, he has founded four companies and is currently serving as the Founder of GrayCell Technologies and GrayCell Ventures. The event formally commenced with Dr. Anuj Sharma extending a warm welcome to the distinguished speaker, Mr. Munish Jauhar. Dr. Sharma introduced the speaker to the audience and acknowledged his achievements and contributions in the entrepreneurial domain.

The interaction aimed to sensitize students about placement preparedness, professional ethics, and long-term career planning .During the session, Mr. Jauhar shared valuable insights into the evolving technology , industry expectations, and the skill sets required to bridge the gap between academia and the corporate world. His interaction focused on the importance of continuous learning in a competitive job market. Mr. Jauhar outlined a clear roadmap for securing job opportunities, encouraging students to start early by developing a solid academic foundation, identifying areas of interest, and consistently building relevant technical and practical skills.

He further advised students to stay updated with industry trends, actively seek mentorship, and cultivate adaptability to remain competitive in a dynamic job market.
He also emphasized that AI tools should be viewed as enablers rather than replacements, encouraging students to leverage them to improve efficiency, creativity, and decision-making while continuing to build strong conceptual and technical foundations.

He advised students to use these tools responsibly as support systems for learning and innovation, while continuing to strengthen core technical concepts. The session concluded with an interactive question-and-answer segment, during which students actively engaged with the speaker, gaining insights into entrepreneurship, skill development in a rapidly evolving technology. Queries related to entrepreneurship, startup challenges, effective use of AI tools, placement preparation, and long-term career planning were addressed . The interaction provided students with clarity and practical guidance, making the session both informative and engaging.

Overall, the Sensitization & Alumni Interaction Session proved to be an informative and motivating experience, strengthening alumni engagement and reinforcing the department's commitment to industry-oriented academic development for the Batch of 2025–27.
