May Exams: A Milestone for MCA & M.Sc. Students

The department successfully conducted the end-semester examinations for the MCA and MSc programs. Practical examinations were held from April 28 to May 2, followed by theory exams—MCA from May 8 to 28 and MSc from May 7 to 22. The examination process was conducted in an organized manner, ensuring academic integrity and smooth logistics.

The overall coordination was overseen by Prof. Dr. Sonal Chawla (Centre Superintendent) and Dr. Supreet Thapar (Deputy Superintendent). Both faculty members ensured strict adherence to examination protocols. With their guidance, all examination days progressed without any major interruptions.

The timely declaration of exam schedules and proper communication channels helped students prepare effectively. Invigilation duties, room allotments, and student arrangements were managed efficiently, highlighting the department's commitment to a seamless academic experience. This examination cycle marked another step toward academic excellence, with dedicated efforts from the faculty and staff, contributing to the smooth completion of one of the department's core responsibilities.

POD AI Masterclass: Building Resumes That Shine

A highly insightful session was conducted on June 5, 2025, with the experts from POD AI, focusing on Resume Building and Profile Enhancement. This one-hour session aimed to guide students on how to create impactful resumes using the POD platform.

The session was organized by the Training and Placement Cell as part of its ongoing efforts to equip students with essential career-building skills. During the session, the experts explained step-by-step how to:

- Create and optimize their profile on POD
- Highlight academic qualifications, projects, work experience, and certifications effectively
- Utilize the platform's built-in features to auto-generate a professional resume

The session provided students with valuable knowledge on structuring their resumes to align with industry expectations, enhancing visibility for recruiters, and presenting their achievements in a concise and compelling manner.

Students actively participated and gained clarity on how to represent their skills and credentials efficiently using modern tools like POD AI.

Such initiatives play a crucial role in preparing our students for a competitive job market.

World Environment Day celebration

On June 5, 2025, the department celebrated World Environment Day with the theme "Cycling for a Greener Future." The event was organized by the Environment Club under the leadership of Faculty coordinators - Dr. Anuj Kumar and Mr. Rishab along with student coordinator Sayak Biswas, aimed to promote a greener environment and encourage healthier lifestyles.

It witnessed enthusiastic participation from students across various departments of the university, as well as a significant number of outsiders who joined the cause. Cyclists took to the roads to spread awareness about the benefits of cycling—not only as a means of improving personal health but also as an eco-friendly mode of transport. Participants actively engaged with local communities, inspiring many to adopt sustainable practices in their daily lives. The event was a resounding success, reinforcing the importance of individual responsibility in protecting the environment and showcasing the power of collective action for a sustainable future.

PU-CET (P.G.) Entrance Test – 2025 Conducted Successfully

The PU-CET PG (Panjab University Common Entrance Test for Postgraduate) for admission to the MCA and M. Sc. (Hons) in Computer Science (Specialization in Data Science) was conducted on June 18 and 19, 2025.

This university-level entrance exam was designed to comprehensively assess the academic readiness of aspiring candidates through a thoughtfully structured test format. The question paper was divided into three key sections. The first section, based on Computer Science, included core topics such as basic concepts of C, data structures, software engineering, operating systems, computer architecture, object-oriented programming, algorithm analysis, and database management systems. The second section evaluated candidates' mathematical aptitude at the 10+2 level, while the third section assessed general aptitude, focusing on logical reasoning, analytical skills, and verbal ability.

The examination was conducted smoothly and efficiently under the meticulous supervision of the staff members. In preparation for the test, all necessary logistical arrangements—including seating plans, attendance protocols, and examination materials—were thoughtfully

organized by the coordinating team to ensure a fair and transparent process.

The examination was held as per the scheduled time slot, from 8:30 a.m. to 10:00 a.m. on both days. Candidates were given clear instructions regarding exam protocols before the commencement of the test. The centres maintained a calm and orderly environment throughout, adhering strictly to the guidelines issued by the university.

The invigilation duties were carried out with diligence and professionalism, contributing to the smooth conduct of the examination without any reported issues or disruptions.

As per students' feedback, especially from those with a Computer Science background, this year's exam felt more approachable and aligned with their expertise, with 60% of the questions drawn from core Computer Science topics. However, this also implies that the cut-off is likely to be higher, and accuracy will play a more critical role than the number of attempts in determining merit. The department values such insights, as they help in better understanding candidate experience and expectations.

The Department remains committed to supporting the academic mission of Panjab University by upholding high standards of integrity and efficiency in facilitating university-level entrance examinations

NIT Trichy MCA Students Gain Research Exposure at DCSA

The Department of Computer Science and Applications (DCSA), Panjab University, recently hosted two MCA students from the National Institute of Technology, Tiruchirappalli (NIT Trichy) — Vanshu Galhotra, under the mentorship of Dr. Anuj Sharma, and Inderpreet Singh, under the mentorship of Dr. Anuj Kumar for their summer internships. The internships provided the students with valuable research exposure, access to high-performance computing facilities, and a nurturing academic environment to explore emerging technologies in their respective domains.

Vanshu Galhotra ,interned at DCSA from May 26 to June 26, 2025. His research focused on Handwritten Trajectories Identification in Scanned Text. Vanshu described his experience as deeply enriching, noting that Dr. Sharma's continuous support and approachable nature helped him stay focused and comfortable from the very first day. He credited his mentor's previous research work as being instrumental in shaping his understanding of the subject. Vanshu also expressed sincere gratitude to the research scholars in the department—Karan , Ratna , Pallavi , Vaishali, and Ashish for their constant support and guidance throughout his internship. Access to the powerful GPU infrastructure in the RUSA Lab proved to be a game-changer, allowing him to execute time-intensive tasks much faster and run a greater number of experiments. His key learnings included exposure to neural networks, transformers, graph-based models, heuristic techniques, and various classification algorithms such as SVM, Random Forest, MLP, and CNNs. He also developed the ability to implement and interpret ideas from advanced research literature.

Vanshu Galhotra

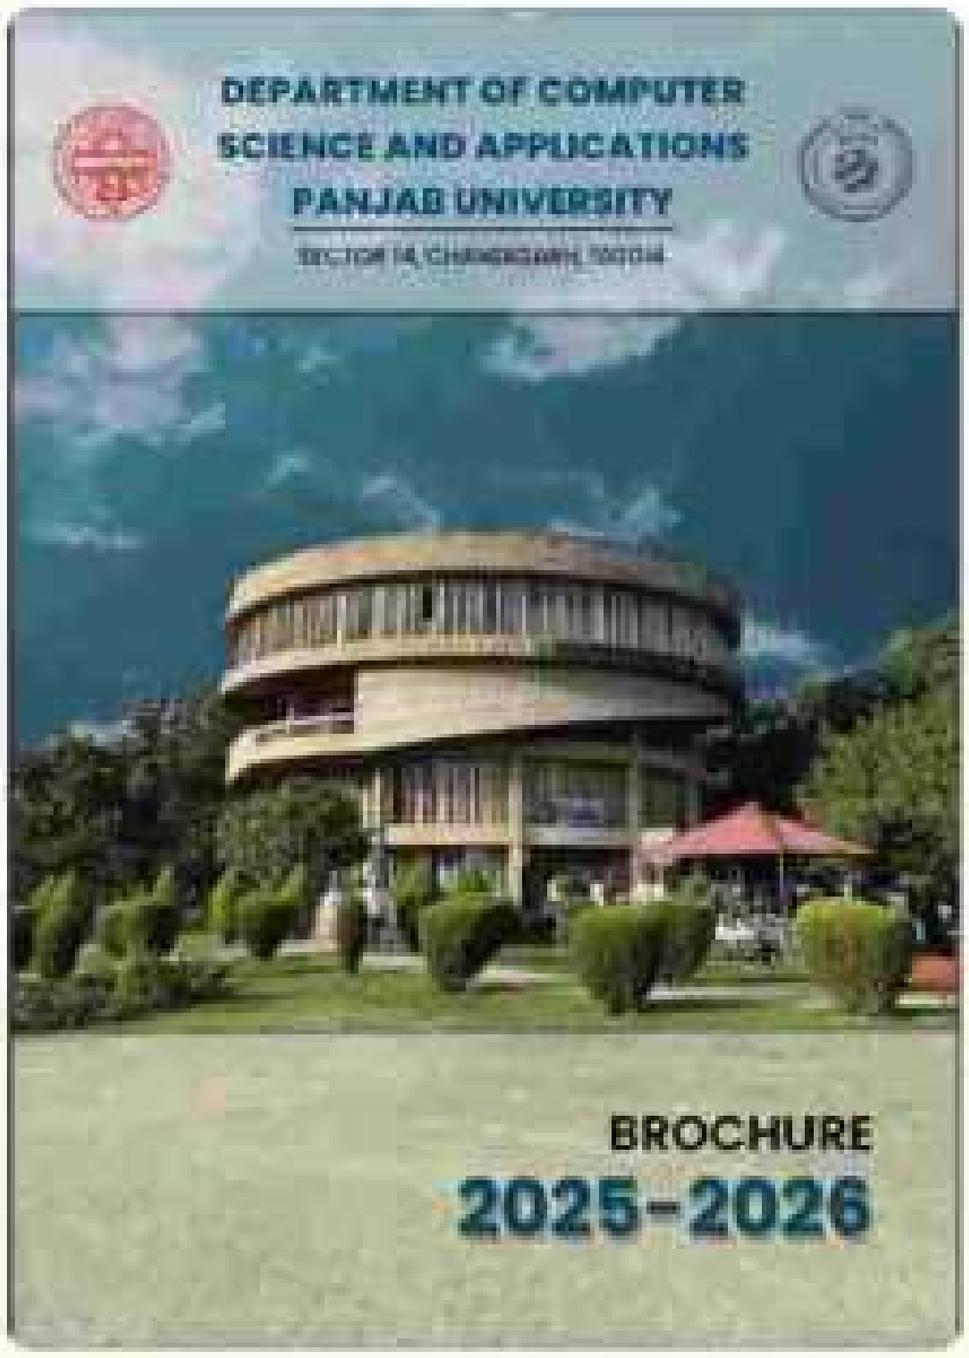

Inderpreet Singh

Inderpreet Singh completed his internship from May 12 to June 11, 2025, working on the topic Brain Tumor Classification Using a Transformer-Based Hybrid Deep Learning Model. Under the guidance of Dr. Anuj Kumar, he designed and implemented a hybrid architecture that combined attention mechanisms with advanced convolutional networks to improve brain tumor detection from MRI scans. The project offered him extensive hands-on experience in medical image analysis, model optimization, and working with deep learning frameworks like TensorFlow and Python. The internship proved to be a valuable learning experience, equipping him with practical skills in applying advanced machine learning techniques to solve real-world healthcare challenges.

These internships reflect DCSA's commitment to fostering inter-institutional collaboration and promoting student engagement in meaningful research. The department commends both students for their dedication and extends best wishes for their academic and professional journeys ahead. DCSA also looks forward to further collaborations with prestigious institutions like NIT Trichy to continue promoting excellence in research and innovation.

From Campus to Corporate: Unveiling the Placement Brochure

Placement Corner

Milestone Moment: DCSA Records 84.7% Placements with ₹8 LPA Highest Package

The department has recorded an impressive 84.7% placement for its 2023-2025 batch, reflecting the department's strong academic foundation and proactive placement strategy.

Out of the total 111 eligible students, 94 have been placed, with 72.97% through on-campus drives and 11.73% via off-campus efforts. The highest salary package offered was ₹8 lakh per annum, secured by Gurbir Singh Dhaliwal, while the average package stood at ₹5.76 lakh per annum.

A total of 21 companies participated in the placement season, including six first-time recruiters. Among the participating organizations, Edifecs emerged as the top mass recruiter, offering placements to 29 students, making a significant contribution to the department's placement success. Other notable recruiters included Infosys, HanuAI, ChicMic, Jungleworks, Innow8, KeyMouseIT, Avisoft, Canvascraft, and Virtualize Technologies.

In addition to on-campus placements, several students received offers through off-campus drives conducted independently or in collaboration with industry partners. Prominent off-campus recruiters included: PrernaGati and Technology, Skill High Edu. Technologies, Soft Edutech, Spectronics India, NKSS Digital Services, Excellence Technology, Pixels Infosys, Main Flow Services and Technologies Pvt. Ltd., Media Verse, Extech Digital, Appbulls Software Solutions, Robozx, OOPS Info Solution Pvt., Edios Innovative Software Solutions, TCIL-IT, Vpro Digital, CS Soft Solutions Pvt. Ltd., Brisko Ventures, NIELIT Kurukshetra, Maruti Suzuki, ExTech Digital, Sensation Software Solutions, DITS Innovation, Telecommunications Consultants India Ltd., Adroitors, Igxact Soft Technologies Pvt. Ltd., Space Window, Mobile Programming India Pvt., Stacknize, Infowiz Software Solution, Topdev IT Pvt. Ltd., OEZ Web Solutions Pvt. Ltd., and Code Cyper.

Speaking about the achievement, Dr. Anuj Sharma, Chairperson of DCSA, remarked, "We are confident that under the guidance of our dedicated faculty and focused placement efforts, the placement process will continue to progress successfully. Our goal is not just placement numbers, but nurturing industry-ready, confident professionals." The Training and Placement Officer for the batch Dr. Jasleen Kaur Bains added that persistent efforts are done by the faculty and staff round the clock by encouraging both Innovative approaches to problem solving and personality grooming. The students are engaged in diverse activities ranging from weekly aptitude assessments, specially tailored workshops from Central Placement Cell on resume-building and personality development, mock interviews, periodic alumni interactions, pre-placement sessions to industry guided domain-specific training modules in form of semester projects. These initiatives played a crucial role in enhancing the placement readiness and overall confidence of the students of Master of Computer Applications and MSc(Hons) Computer Science.

This marks a significant milestone and one of the highest achievements for our department. We are proud of this success and are truly grateful for the constant support and guidance provided by our faculty, placement cell, and professors. We remain hopeful and enthusiastic for even greater accomplishments in the future.

- Ishneet Kaur & Arsh Divya MCA-I(M)

ZippiAI & Sensation Solutions Summer Internship

The Department facilitated valuable summer internship opportunities in collaboration with two reputed organizations — ZippiAI and Sensation Solutions — aimed at providing students with real-world industry exposure.

For ZippiAI, a preliminary test was held on May 5, 2025, after which some students were shortlisted for technical interviews conducted on May 2 and May 6, 2025. Following the evaluation process, Rahul Kumar, Rashi Sood, and Sayak Biswas were selected for the 45-day internship.

For Sensation Solutions, a preliminary test was also conducted on May 5, 2025, after which some students were shortlisted for the final interview round. The interviews were held on June 2, 2025, and after a thorough evaluation, Jaskaran and Saakshat were selected for the internship.

These internship programs provide students a platform to apply academic knowledge in professional settings, thereby enhancing their skills, confidence, and industry readiness.

Faculty Outreach

Faculty Recognition: Dr. Anuj Sharma Honored as Distinguished Alumnus

The department is proud to announce the recognition of Dr. Anuj Sharma as a Distinguished Alumnus by Government College Sanjauli, Shimla. This honor reflects Dr. Sharma's sustained contributions to the academic and research communities, particularly in the field of Artificial Intelligence.

As part of this recognition, Dr. Sharma was invited to deliver expert lectures during a Faculty Development Programme organized at Government College Sanjauli. His sessions focused on the evolving landscape of Artificial Intelligence, covering its practical applications, research frontiers, and relevance in contemporary academia and industry. The lectures were well-received and contributed significantly to the faculty's understanding of modern AI methodologies.

Dr. Sharma's engagement in such academic outreach activities demonstrates his ongoing commitment to promoting knowledge exchange and mentoring the next generation of educators and researchers. His achievements continue to bring distinction to the department and inspire both students and colleagues alike.

The department extends its congratulations to Dr. Sharma for this well-deserved recognition and looks forward to his continued leadership in academic and research excellence.

- Nancy MCA-I(E)

DCSA Faculty members appointed as Hostel wardens

On May 29, 2025, two esteemed faculty members from the Department of Computer Science and Applications (DCSA) took charge as Hostel Wardens at Panjab University, Chandigarh. Dr. Anuj Kumar has taken charge as the Warden of Boys Hostel No. 6 (Justice Teja Singh Samundri Hall), while Dr. Supreet Thapar has been appointed as the Warden of Girls Hostel No. 6 (Mother Teresa Hall) .

The DCSA department extends heartfelt congratulations to both Dr. Anuj Kumar and Dr. Supreet Thapar . Their dedication, hard work, and unwavering commitment to the welfare of students have always been commendable. The department is confident that under their guidance, the hostel environment will continue to thrive, ensuring the well-being and holistic development of the students residing there. We sincerely wish Dr. Anuj Kumar and Dr. Supreet Thapar great success in fulfilling their responsibilities and contributing positively to the university community through their new roles.

- Ishneet Kaur MCA-I(M)

Alumni Spotlight: Vikram Garg's Journey of Innovation and Impact

Vikram Garg, an accomplished alumnus of Panjab University, pursued his Master of Computer Applications (2010–2013) from the Department of Computer Science and Applications (DCSA), Panjab University, Chandigarh. He is currently serving as a Senior Embedded Engineer at Verisure, Sweden, a leading global provider of smart home security solutions. In his current role, Vikram works on embedded software development and algorithm implementation, contributing to surveillance systems that help safeguard millions of homes across the world.

Achievements:

- Individual Excellence Award for LTE TDD Integration – Aricent, Gurgaon
- Best Team Award for Pre-5G Development – Samsung HQ, Suwon, South Korea
- Best Team Award for 5G Development – Samsung HQ, Suwon, South Korea
- Individual Excellence Award for Customer Support & Bug Fixing in 5G Stack – Radisys, Bangalore
- Office Olympic Team Winner – Cybercom, Stockholm, Sweden

Vikram Garg fondly remembers his time at the Department of Computer Science and Applications (DCSA) as an unforgettable chapter in his life,one that laid the groundwork for both his personal growth and professional success. He describes every day at DCSA as a memorable experience, filled with learning, camaraderie, and inspiration.

Among the many cherished moments, the holy trips to Mata Vaishno Devi and the enthusiasm of placement season stand out as particularly meaningful. Reflecting on his academic journey, Vikram credits the department for fostering a dynamic and nurturing learning environment that empowered him to explore his capabilities and pursue excellence. He expresses heartfelt gratitude to his teachers and the institution for shaping his journey and enabling him to become the professional he is today.

Message to Students:

"Going to university—especially one as prestigious as PU—will be a wonderful experience. This is an opportunity for you to learn not just about the world around you but also about who you are and what you want to do in life. At times, it will be challenging. Some days, you may even wonder if you're on the right path. Regardless, make the most out of the experience. Embrace every opportunity for growth that comes your way, and when you find something you're passionate about, persist. Most importantly, remember to have fun and make memories. The friends you will make here will go a long way throughout your life, so don't miss a chance to make one."

Vikram Garg's remarkable professional journey is a testament to the strength of a solid educational foundation, global adaptability, and technical mastery. The Department of Computer Science and Applications proudly celebrates his accomplishments and wishes him continued success in all his future endeavors.
