Student Achievements

Harsh Kumar

MCA Evening -2nd Year

Active Member of NGO "Robin Hood Army"

The Robin Hood Army is a volunteer-based, zero-funds organization that collects surplus food from restaurants and communities to serve the less fortunate. Local chapters, run by friends and colleagues, focus on helping their own neighborhoods. Volunteers, called "Robins," are mostly students and young professionals who contribute in their free time.

Anmol Bhaskar

M.Sc. Computer Science -2nd Year

Department Chess Champion

Anmol Bhaskar emerged as the winner of the Chess Championship tournament held during the Sports Day event. His strategic gameplay and focus throughout the competition led him to claim the championship title, showcasing his exceptional skills in chess.

ALUMNI CORNER

ALUMNI OF THE MONTH

Prabhjot Kaur

Batch 2022-24

Recent achievements

She represented Panjab University at the inter-university rhythmic gymnastics championship, winning a gold medal while studying in DCSA. On National Sports Day, 29 August, she received a cash award from the UT Sports Department Chandigarh, presented by the honorable governor of Punjab, Sh. Gulab Chand Kataria, at Punjab Raj Bhawan.

Message for students

Your time at the university will be filled with challenges, learning, and growth. Embrace every opportunity and make the most of the resources available to you. Remember, the skills and knowledge you gain here will be the foundation for your future career in the tech industry.

PLACEMENT UPDATES

TPC Orientation

The orientation program for new students took place on 21st August 2024 at 10:30 am, offering a warm introduction to the department. Organized by dedicated students, the event featured smooth management, technical setups, hospitality, and documentation.

A detailed presentation highlighted the department's workshops, seminars, clubs, placement statistics, key recruiters, and alumni success stories, motivating newcomers. Students were encouraged to join the Training and Placement Cell (TPC) team to enhance their skills and support placement efforts.

Key personnel, including Training and Placement Officers (TPO), departmental coordinators, and student teams, were introduced, helping new students connect with important contacts. The event was well-received, with positive feedback noting its informative and welcoming atmosphere, setting a promising tone for the students' academic journey.

Innow8 Apps Placement Drive

On August 6, 2024, Panjab University's Department of Computer Science and Applications hosted a successful placement drive in collaboration with Innow8 Apps. This event aimed to recruit final-year MCA and MSc CS students for roles in software development and quality assurance.

The drive drew 37 candidates, including those from Hoshiarpur and Muktsar, all vying for opportunities with Innow8 Apps. The rigorous selection process resulted in three successful placements: two Associate Software Developers with a compensation package of ₹4.8 LPA and a monthly internship stipend of ₹10,000, and one Quality Assurance professional with a compensation package of ₹3 LPA and a ₹10,000 monthly stipend.

The positive outcome of this placement drive highlights the high calibre of the students and the department's dedication to providing valuable career opportunities. We extend our gratitude to Innow8 Apps for their partnership and anticipate future collaborations to further support our students' professional development.

Edifecs Placement Drive

In continuation of its previous placement drive in July 2024, Edifecs commenced another drive for one vacant position of Associate Operations Engineer (AOE) on August 12, 2024. A total of 29 students registered for the same.

Following registration, the EDIFECS Operations team conducted a resume filtering session. All rounds were conducted online. Twelve students advanced to the technical round held on August 22, 2024. From these, four students were selected for the managerial round on August 23, 2024. Anish Kashyap of MCA 2nd Year (Morning) was selected.

With this a total of 29 students have been placed in Edifecs from the placement drives conducted by the company in July & August 2024.

FACULTY OUTREACH

Dr. Anuj Sharma: CBSE Resource Person on Cyber Security and Safety

On 3rd of August, Dr. Anuj Sharma served as an expert or guide on behalf of the Central Board of Secondary Education (CBSE) to provide training, insights, or knowledge on the topic of Cyber Security and Safety. As a resource person, he would be responsible for educating teachers, students, or other stakeholders about various aspects of cyber security, such as protecting personal data, safe internet practices, recognizing cyber threats, and implementing security measures to safeguard online activities. This role involves sharing expertise to enhance understanding and promote safe digital habits within the educational environment.

THE EDITORIAL TEAM

Faculty Coordinators

Dr. Jasleen Kaur Bains

Ms. Supreet Thapar

The department has established a new editorial team to oversee the release of a monthly newsletter. This initiative, guided by Faculty Coordinators Dr. Jasleen Kaur Bains and Ms. Supreet Thapar, aims to keep the department informed about updates from faculty, alumni, and students. Currently composed of second-year students, the team is open to welcoming first-year students who are interested in contributing.

The newsletter will serve as an essential tool for keeping everyone connected and up-to-date with departmental news, learning resources, and upcoming events. By providing insights and fostering engagement within the academic community, it will enhance communication and support among students, faculty, and alumni.
